Thread: [Crypto VC is seeking Growth Hackers - Twitter/ Twitter Spaces/ Community Growth](#)

CommunityBuilder - May 24, 2022, 10:19 am

Hey HF! Long time consumer and lurker here. I am a partner and head of growth hacking at crypto defi VC.

In short, we find projects, deal flow projects, fund many, and incubate a few.

Due to the markets, we are currently on a bull run of acquiring companies that have lost their liquidity and are bullish on the projects we're incubating - for good reason.

We are seeking consulting/ services from any direct supplier of UNIQUE and High-value potential marketing services. This will likely be from somebody who has a growth hacking background or has an agency that provides it.

Examples of Services we are not looking for:

Twitter Giveaway Pages

Random Lists of accounts you can have repost us (we need a campaign built not a middle man)

Examples of Services/ Consulting we are looking for:

Unique strategies that you have come up with that have yielded high-value results

Larger KOL's - Transaction coordination & project coordination

Former project CMO's/ Fractionalized CMO's

Please shoot me a DM or reply here if you think you would fit this.
