(May 25, 2022 07:54 AM)MetaSploit Wrote: [\[CITE\]](#) You can find plenty of them on GITHUB, but the free ones will be fairly crappy. However that is fine, since the stealing/grabbing process is not complicated at all, and you can adjust any code to your needs.

I searched the whole GITHUB lmao
i just found ones that steal passwords but chrome cookies wont get logged
Do you a good one that supports chrome cookies ? even if its crappy lmao

(May 25, 2022 08:06 AM)MetaSploit Wrote: [\[CITE\]](#) I am confused. Cookies do not store passwords. Are you looking for a password stealer? Or cookie stealer (to use later with injector and clone sessions)?

cookie stealer

What i said was all cookie stealers on github are useless since they dont support chrome cookies
So is there any free cookie stealer that supports chrome latest version ?
