Won a banger bet on Uefa's Conference League final and decided to do chill on slots after this with \$100. That's the end result of the day :)

ailo - May 25, 2022, 4:46 pm

congrats i must say, make sure you cashout some of the profits.

The slot winnings I cashed out, the soccer winnings I'm going to go all in on Champions League final on 28th, than hopefully cashing it out if my bet wins :)

Who do you have for the UCL Final? I think Madrid will take it home.

I'm also having this feeling but I will bet that both team will score.

Nice profit, congratulations mate??

I admit that I would gladly make a few bets to try my luck, but I do not know much about sports????

To be honest I do very rare big bets like 2-5k, only when I'm 99% sure they will win. Usually I just put 200-300\$ to have some fun. I could share you some bets when I'm confident in them ?

I-I - June 5, 2022, 10:05 am

Cash some of that out bruv! The problem with gambling is you never wanna quit on the high because you're having fun. I should know. My dumbass turned \$200 into \$3000 in 1 night then lost it all in a few hours. Went to bed, woke up pissed xD

At least I had fun though

That's bad, my strategy is whenever I win some money I will do this:

- 50% of the earnings will be invested in something that will bring me money
- 30% of the earnings I will buy stuffs like clothes etc (just spend the money quick)
- 20% I will try to chase the luck streak again ?

ezhackerreportedgg - June 5, 2022, 10:24 am

damn good job man thats a lot of money

That's much better than my "LET IT RIDE" strat. I'll have to implement that next time I actually have money to gamba.

No, I decided to skip it and it paid off. Would be so upset as I was really confident both team would score.

That's what I would have bet anyways. I didn't expect only 1 goal in the final..

Why not, I'd love to bet if they have some cash?

I have to admit it's a very wise and conservative approach to betting. Let me ask you what other disciplines are you betting on?

That looks like a nice win, make sure to bag it, before you lose it all! I always do when gambling lol.

diablospartan - October 19, 2022, 6:29 am

Nice win but its also some risks ,in my case i would be scary to bet 2k\$ and if i would lose it think i would go depresion

Juoku - *October 28, 2022, 7:11 am*

It's only profits once you cash out, otherwise it's "tokens" you can still lose ;)
