Thread: [\[SOURCE+BUILD\] No port forward rat \[MinimalDiscordRAT\]](#)

Moon_Developer - May 27, 2022, 12:19 pm

Main thread - > <https://hackforums.net/showthread.php?tid=6205788>

As i've not recieved the expected sells here (only few , instead of what I've thought) I don't wanna maintain nomore this product, and so i'm selling here source code + release build for a good price

prices and info - >

coded in c#
noob friendly because of commented code.
scantime FUD (atm of posting this thread.)

final price (not negotiable) 100\$

I will sell this only 1 more time, as i've already sold it 1 time here on forum.

kvni - June 10, 2022, 4:55 am

send me a preview of GUI on PM please

Added also new features such as :

SPREAD (user, if got discord installed, will start SPAMMING in DMS with a custom message ,
pinging @ everyone.)
