Thread: [\[Looking\] Solidity Developer](#)

kbkb - May 31, 2022, 8:27 am

I need some alterations made to my existing NFT minting contract. This contract works fine with AVAX, which is the native currency of Avalanche (the chain I'm using to deploy my contract). However, I would like to change the currency accepted from AVAX to USDC.e. I'm willing to pay \$150USD - \$250USD for this small alteration, depending on how quickly you can create the functionality.

Message me directly for my discord ID if you are interested.

[contract=tid]Start Contract[/contract]
