Thread: [private method >> earn \\$7,500+ per month \(crypto payout\)](#)

xPower - May 31, 2022, 12:17 pm

Are you looking for a new income stream and have capital/time to invest? If this is the case I have a really special method that I will be offering to the public for a short period of time. This method involves absolutely no risk and will bring you an income upwards of \$7,500/month (\$250+/day) GUARANTEED.

Please take note of these requirements for the method:

- Desktop/Laptop
- \$50 Investment (For Setup)
- 1 Hour per Day

If you can meet all of these requirements then this is a great opportunity for you. The method will take 2-3 days to set everything up. The setup work is quite simple and is explained very well, but it will take time as mentioned. After you finish with the setup you will start earning right away. For the first few days your earnings will be around \$100-200/day but will steadily climb to \$250+/day within a week. Also the best part of this method is that it can be scaled, so even \$250/day is not the limit. There have been some days where I've hit \$500+ in a single day. Payout will come through bank or crypto (your choice) and the payouts are instant (of course if you choose bank transfer it may be delayed a few days though). This method will NEVER be patched but can be saturated, which is why I am limiting the copies. Also KYC is not required for this method.

This method is priced aggressively to reflect the quality and potential it provides. Copies will be limited because the method can be saturated.

Current Price: ~ \$250 (1 discounted copy remaining)

(Sep 1, 2022 01:14 PM)interbellum Wrote: [\[CITE\]](#) Bought this method a bit ago. Here is my review about the method OP is selling:

OP provided the method instantly + it came with some bonus private methods aswell to make quick easy cash on the side. AMG (OP) is really friendly and supportive aswell. Ideal person to deal business with. I had some issues for the setup (which was on my side, nothing to do with the method) but he helped me resolve it and support me through it :-)

About the method itself, I made my money back TWICE in just A FEW DAYS. It takes a small investment and some time to set it up but it's so worth it. It's also really scalable so I'm expecting x3-x4 earnings really soon since I've been working on the method a lot.

Definitely not something that's public like those shitty CPA e-books or whatever. This is a REAL method that allows you to earn good amounts of money with just a small investment and some time. You could even make it autopilot which is great!

Overall, really great product. I highly recommend this to other people that want to earn money online.

(Jul 28, 2022 11:20 PM)Laugh Wrote: [\[CITE\]](#) I finally got some free time to use this method and I have been really impressed so far. The method makes sense and is easy to setup. Actually most people probably won't even need assistance but AMG is usually around to help if needed. The setup definitely takes some time but once you are done you can start to see your first earnings.

For the method it's true that you will need around 30 mins to 1 hour each day to ensure optimal earnings. In my opinion it's well worth it for the work I'm doing. I pretty much just watch tv shows while working so it's right up my alley. It's just basic work like mentioned on the thread you won't need to do anything spectacular. Currently I am making around \$100 every day which is amazing because I still have loads of room to scale this.

Overall very happy with this purchase and shoutout to AMG for hooking this up and being around. You really got something special going here man!

No risk involved at all. Also you will need a \$50 initial investment to get started, this investment is only 1 time.

First copy has been sold.

You should have the person who bought it provide a vouch/review

or Give a staff member the method and have them write a review

Might pop off faster.

xPower - June 2, 2022, 9:54 am

As of this time I won't be giving out any vouch copies because this method can be saturated. To counter this I have made the first few copies a lot cheaper than what the method is worth to help bring in some buyers.

Already have a member that has purchased and we are currently on to our second copy. Hope to see some great reviews soon.

Bought this method a bit ago. Here is my review about the method OP is selling:

OP provided the method instantly + it came with some bonus private methods aswell to make quick easy cash on the side. AMG (OP) is really friendly and supportive aswell. Ideal person to deal business with. I had some issues for the setup (which was on my side, nothing to do with the method) but he helped me resolve it and support me through it :-)

About the method itself, I made my money back TWICE in just A FEW DAYS. It takes a small investment and some time to set it up but it's so worth it. It's also really scalable so I'm expecting x3-x4 earnings really soon since I've been working on the method a lot.

Definitely not something that's public like those shitty CPA e-books or whatever. This is a REAL method that allows you to earn good amounts of money with just a small investment and some time. You could even make it autopilot which is great!

Overall, really great product. I highly recommend this to other people that want to earn money online.

Great question, this method can be saturated but that would be very difficult to do especially with the limited copies. For that reason I don't mind selling a few copies for extra income.

Would purchase as this thread actually doesn't look that bad, but if there were just at least another review from one of the contracts as I actually understand the limitation for saturation, but assurance is always the best route.

Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first

If you haven't already read the first post of this thread we encourage you to do so.

The main method provided is a good method. You get the bones of the method, you create the flesh & everything else on your own. I've seen it around this and other forums but with little time & effort you can make \$ easily outside of here. You will have to go outside of what OP puts in pack to maximize profit with this.

Couple contradictions/ flaws w OP though..

Been almost 6 months since I bought the "1 final discounted copy" but OP continues to sell more, continuously saturating the method which he said he'd do everything in his power to not do after I expressed concerns, especially being "the last one to be able to buy it".

In the pack the method came in, OP said he'd provide a "special" kind of support(trying to not give up method) for a month but in the messages following he said he would provide 2 weeks.

Lastly any kind of support is pretty few, far between. With the main method directly tying you to him for success(at least from the beginning) the support not being top notch will mess things up for you 1000%.

Ran into trouble doing one of the other methods provided & OP didn't give any support rather than telling me to "put that one on pause" then months later telling me it's working really well without offering any support on how to get it working on my end..

All in all good methods, but not everything they're chalked up to be. Even after you purchase.

OP & I had some miscommunications but he ultimately made it right & was apologetic about it.
