Mans obsessed with the Royalty Award prize, he doesn't care for the crypto or bytes ??

According to the current scoreboard, you'd need to make over 200 memes or 20 tutorials to catch up for second place. And I have no plans on stopping until it ends #sorrynotsorry ??

Well the reason for that was the award will be rewarded to me in crypto and their is 30% tax on crypto here in India from 1st July. Bad luck i guess. But i will be aiming for top 3.

I am thinking a mix of tuts and Memes. lets see. I have been saying this for some time now, But Not posted a single MEME LMAO.

But enjoying the competition my man :)
