Thread: [\[\\$20,000+ Earned\] THE EXACT METHOD I USED TO MAKE THOUSANDS STEP BY STEP](#)

SIM-4378207 - June 4, 2022, 7:56 am

INTRODUCTION

Get introduced to the exact method I used to make tens of thousands since 2017. All step by step. You won't make the same mistakes I made. Everything that I share in this method has been tested and is 100% working and will keep working as it is a part of a rather big industry. And everything you do is completely whitehat. Nothing even slightly illegal or immoral is involved.

Why is it working then? Because I came up with an idea that not many others did. I did things slightly differently and it paid off greatly.

Now you have the chance to learn how to do this as well and make a hefty amount of money on the side without spending too much time.

This method has nothing to do with:

CPA

Affiliate programs

Dropshipping

Betting/Gambling

Ewhoring

or any other bullsh*t get-rich-quick scheme you've encountered.

Requirements:

PC or a Laptop

Minimum of \$20-30 - To start doing the method you'll have to invest a small amount of money. Of course you can invest even more and get even better results. The absolute minimum starting point would be \$20-30.

1 to 3 hours a day - Once you get the hang of it, you'll need less and less time to execute everything.

Price:

\$100 BTC/ETH/LTC (any popular cryptocurrency)

F.A.Qs

Q: Does this work worldwide? Is there age restriction?

A: Anybody can do this, from any point in the world.

Q: What payment methods are available?

A: You can get paid basically any way you want - Cryptocurrency, PayPal, Skrill. Anything really.

Q: Can you automate the method?

A: You can make it semi automated, there is a section regarding this in the method.

Q: How much will I be able to earn monthly with this method?

A: That number varies a lot. I used to earn around \$2000 a month from this without giving it too much time.

Sometimes you'll have opportunities where you can make much more. If you take the next step, automate and scale the method you can make a lot of money.

Q: Is the method whitehat?

A: Yup. completely whitehat. You are not doing anything illegal or even immoral.

Q: Can I get a refund if I don't manage to earn money?

A: Sure thing. You can, although the method itself is not rocket science and I cannot see a single reason why anybody won't succeed.

But first you'll show me what you've tried and I'll give you 1 on 1 tips on how to do better.

If you still don't manage to make money - no worries, I'll give you a full or partial refund, depending on your effort.

If you have any other questions - don't hesitate to contact me.

REVIEW OF THE METHOD

First of all, I would like to thank OP for sending me a vouch copy. This is my honest review:

This is not a super private method. Chances are, you've heard someone making money doing this but probably brushed it off and never thought if it could work or not.

The method definitely has potential and it is one of the vouch copy e-books that I will actually try (next month, I have a hectic next few weeks). At first you will have to do some manual work, how many hours? Depends on how hungry for money you are. But shouldn't take longer than a few hours daily for a decent amount of profit or even less if you are familiar with Jarvee.

It does include selling digital stuff, but you will barely be talking with customers. It will mostly be just them asking if you sell in bulk, maybe price negotiation and ask you for the payment details. The method is highly scalable, if you put in more work, you will earn much money. But it's NOT A GET RICH QUICK method. If you are lazy and want to start earning hundreds daily from the first week with minimum to no work, then skip this one.

Overall, I'd give this method a solid 8.5/10. (Jun 13, 2022 10:14 AM)rodaxe Wrote: [\[CITE\]](#) I bought the method. So far it sounds good. It is connected with a big website and there are other people doing this but I would've never thought of the way OP does it. Will give it a go and report here with results! If it goes well I even might have an idea to automate a big part of it. Overall feeling positive about this as money can be made for sure.

First ever 2 deals for which I invested around \$18. Might actually look into some of the options for automation in order to scale the method. Hopefully I'll start turning in profit in a couple of days. OP's experience was very helpful and you can also start adding/testing your own twists in order to advance faster.

Thanks for the review! Yup, people usually expect to make tons of money with some never seen before stuff. With my method you get something that has been proven to work and you do it with my own twists (ones that I've spend plenty of time on so you don't have to repeat the same mistakes I've done).

Some manual or semi-manual work. If you decide to automate it, you would have to buy the tool to do so. I believe there are a couple that can do the job and are not that expensive. No other requirements. Let me see if I can come up with some terms and I'll get back to you on the middleman matter.

No website required. It does involve selling in order to reap the profits.

To answer your current question - you won't be using ebay nor craigslist.

OP, you willing to use a MM and release funds after the buyer has made their initial investment back?

I've just recently seen someone exit scam and it's like weeds that just keep popping up, same method promising XXXXXXXX with little to no proof and just random transactions.

I've just recently seen someone exit scam and it's like weeds that just keep popping up, same method promising XXXXXXXX with little to no proof and just random transactions.

I have decided against using an MM for a couple of reasons.

The method does require manual work, even if you make it semi-automated. You might not like the method or be too lazy to do it. What will we do if that happens?

I have been on the forum for a while, made plenty of deals and never had a problem, I won't be scamming you for a \$100 method.

I even offer a refund if you don't manage to make money with the method - of course only after I see that you've tried to do something and help you fix your mistakes if you've made any.

I am not selling a \$500 a day straight from the start method. As I have stated in the thread, this method is not some ultra private never seen before stuff. I just found a way to do something that many others do better and it's been consistently working. If you'd like to get this knowledge, put in the work and make money with it - let me know!

Might be better off to wait until members get a review AND PAYMENT PROOF from someone who's reputable and not a random fresh account or if OP decides to use a MM until the buyers have made their money back.

I'm sorry but I've seen this type of thread way too often now, people who don't use a MM and go first to these kinda methods end up getting scammed, trying to avoid that at all costs.

Jarvee has automation for 10+ platforms. I don't see how this is revealing anything. The method has nothing to do with FB or IG - what Jarvee is mainly used for.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

I received a discounted vouch of the method and will do my best to give you a unbiased review of the product.

Review: This isn't exactly new method and makes use of a popular website. I feel the way the method is presented here is overall good. The 6-7 page PDF outlining the method; it is short and sweet but for the price I wish there was some additional information or tips.

There is potential to make money here but will require time and effort (manually at first). To make a lot of money will require time and investment
