It is the \$25 coupon method but he gives you everything you need and walks you through it. Thank you

Works as of writing this post.

Presentation of method: 8/10 Everything was clear and easy to read. slayerssss solved all my questions and alot of info is in the there step by step.

Method itself: 9/10 So whilst i see people trashing in his thread his method is update to date and current as of 7/6. He's definitely given me the tools i need to succeed. Ordering all my own food and others food alike. Your buying a business model and personally i think its easy to make your money back if you have a way to advertise. (I run a discord DM service so its 0 problem for me)

Final Verdict: Ultimately this is a real working method. there's no bullshit. You pay, you get a easy to deploy low cost business. that is a fact.

I give this method 8.5/10 it works, its fullproof and slayerssss is on standby to help me whenever i need. he's super active and friendly. Can't fault the guy.

But yes the method posted by LV still works with the Referral Promo codes and GPS spoof to use the 25 off that's public.

Also just use JuicySMS for legit USA numbers, if you don't have your own Sim Farm.

But again these will continue to get taken down and patched by Uber.

Sorry OP but if this isn't an UberCash exploit it's not worth anything since ALL promo methods are Public and free. (Which also works for Rides)

Anyways I guess GLWS, hope it's worth the \$300 hahah
the "leak" is literally in his bio you crackhead

ezhackerreportedgg - June 5, 2022, 12:06 pm

this price is outrageous

you are crazy

(Jun 4, 2022 09:28 PM)slayerssss Wrote: [\[CITE\]](#) Hi HF community. I am selling my Uber Eats method, which has made it possible for me to start my own B4U service. This method has nothing illegal and does not involve SE or refund. The method allows you to order food at an extremely cheap price or even free. This method works for US only as of now. (Canada works too but not as efficient) And with a good amount of traffic to your B4U discord server, you could easily rack up 3 digits a day just doing orders.

The price of this method will be \$250 because of how easy it is to use and to make money with.

If you have any other questions please do not hesitate to get in contact!

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
