(Jun 12, 2022 10:33 PM)Romanus Wrote: [\[CITE\]](#) I have received a Vouch copy, and here is my unbiased review of NotKover's dropper.

[+] The Seller kover and I have done plenty of deals, and he has helped me tremendously. Issues with the dropper? Fixed! We have always had great contracts, as I bought his <https://hackforums.net/showthread.php?tid=6201881&highlight=Worm> before and it met all functions => for the seller, 9/10

[+] The quality! I'm assuming this is more of a project than a fully functional one, but it's good. From what I've heard there's a silent way to run the shell window, but when I ran the file a shell window popped up. It wasn't bad, closing it didn't do much regardless and my internet is slower here, and the file was relatively big. But it works well, especially with having the whole drive excluded. If it's ran, there's no undoing of anything, if you drop the right files. Overall: 9/10

[+] The exploit this dropper uses a unique exploit, which I will not disclose. Never run this unencrypted, you always want to crypt, but even the unencrypted stub is very OP. I have a checkzilla scan here to show: <https://checkzilla.io/scan/8b34995d-11f2-41bd-831d-6bf1af453f26>

For the exploit, it's unique and functional. 9/10

~ In conclusion, those product has alot of potential and I'm excited to see where it goes. The developer is active, so I know we will have a nice active amount of updates, and more to come.
Overall, 9/10

Best Regards,
~Roma

Romanus - June 8, 2022, 11:13 am

hey there, ill take a vouch copy if your offering! project looks promising, best of luck

Best Regards,
~Roma

Sent my file for vouch copy

magichack3r - June 10, 2022, 10:24 am

It serves to elevate privileges to an .exe and does a WD exclusion. Is that file required to use this FUD?

NotKover - June 10, 2022, 10:26 am

(Jun 10, 2022 10:24 AM)magichack3r Wrote: [\[CITE\]](#) It serves to elevate privileges to an .exe and does a WD exclusion. Is that file required to use this FUD?

It will help to have the dropped file to be FUD but is not required but you will get better results with the dropped file to be runtime FUD

magichack3r - June 10, 2022, 7:05 pm

Specifically I would like to know if you can elevate privileges without running as administrator. Do you deliver a builder and can I create how many different files each time?

NotKover - June 10, 2022, 7:49 pm

(Jun 10, 2022 07:05 PM)magichack3r Wrote: [\[CITE\]](#) Specifically I would like to know if you can elevate privileges without running as administrator. Do you deliver a builder and can I create how many different files each time?

Yes the file will be ran with admin rights without requesting for admin to the user and no, i manually make each build, you can have the dropper build drop as many executable as you like

Sticky Bot - June 11, 2022, 8:22 pm

Hi, I'm Sticky Bot. The owner of this thread has purchased a Paid Sticky. Hack Forums does not get involved in deals or deal disputes. We do not vouch for the product or the service offered by members. Please note that all deals are at your own risk. The sticky will expire on 06-18-2022. If you or a loved one are interested in buying a sticky please visit this page: [Buy Sticky](#). For more information about Paid Stickies you can read our [Help Doc](#).

anti-scam - June 11, 2022, 8:35 pm

does it bypass Windows Defender on runtime ?

[Hackers Lab](#)

NotKover - June 11, 2022, 8:42 pm

(Jun 11, 2022 08:35 PM)anti-scam Wrote: [\[CITE\]](#) does it bypass Windows Defender on runtime ?

[Hackers Lab](#)

The methods used bypass runtime on many AVs but after a usage from multiple customers the scantime results can change but i will work to keep it as UD as possible but i recommend to crypt all your files for the best results

Thank you very much for the review, im happy you liked it and im re-writing the whole dropper right now to be 100% silent and clean and will hopefully be ready in the next few days, im also going to be writing a polymorphic engine overtime to help make each build unique but that will be a few weeks

If anyone has questions, please send me a message on telegram @NotKover

justalemon - June 13, 2022, 2:39 pm
looks awesome bro, GLWS ;)

NotKover - June 16, 2022, 12:19 am

I am working on v2 of my dropper to make it more efficient and harder to signature, if anyone has functions they think i should add please let me know via convo/private message or telegram @NotKover

KJTR1 - June 17, 2022, 7:33 pm

Stanley - September 15, 2022, 8:08 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

NotKover - November 6, 2022, 5:57 am

I am selling the source code of my dropper as well as explanations on how to properly deploy it as well as explaining how the uac exploit works etc, i can also implement the uac exploit in other languages for a extra fee

Price for source code as is:\$2500

Price of source code as well as implementation in other languages:\$2750
