I don't think it should break any rules, if anyone else is concerned regarding this. I could clarify with

a staff member if required. We're barely halfway through this giveaway and I'd like to see it through till July.

Every single day is a new giveaway with a new prize. The mega giveaway goes on for 50 days, hosting a giveaway for every day. In certain cases, some users would not prefer the daily prize pool (eg. let's say you already have the item, or you can't use it in your region eg. HBO) so that's why the entries are refreshed for each day.

Today's winner is [Net](#)

You got some good luck going, that was a 4.5% chance of winning considering all of the participants.

I've sent over your prize. Thank you everyone for participating, I wish I could do this longer but I've been more busy lately as you could see from my activity the past few days that I haven't been able to keep up with rolling for prizes, which was something I anticipated in the start.

Maybe in the future we'll return, with an even larger series of giveaways. Until then, farewell. Love ya, HF.

Of course I'd also love to thank everyone for bringing up the number to 69 quick loves (QLs).

Thank you everyone for participating in the giveaway. I enjoyed hosting it as well, hopefully I end up having more free time in the future so I can host more like these for the members.

It was definitely a profound experience and we've witnessed tremendous activity throughout this thread by all participants. We'll be back sometime in the future with more to come. Until then, farewell.
