Thread: [GET 4 FREE MEALS FROM FACTOR75 \[DIGITAL CODES\]](#)

JuiceBoxCereal - June 10, 2022, 4:50 pm

This is probably the best food deal on the market right now.

To get 4 of these meals, you'd have to pay \$70 on their website.

The meals are of outstanding quality, and unlike meal kits, you don't have to spend any time making these meals.

Just put them in the oven or microwave and you've got a very tasty meal.

This is for USA only.

You can use a code more than once. Just change the email, payment method (card, VCC, PayPal), and you're good to go.

Selling these codes for just \$5.

Payment can be made with crypto or CashApp.

Do you have any codes?

Can you received multiple shipments per week using different accounts?

Yes I do. You can do one per week.

Interested, but how would I get a VCC for it?

Does this mean the Code you provide can be used once per week repeatedly? Or do you mean you can Order more than once with a NEW code and all new info?

The codes are definitely only one time use.

I think he means you can use a new code, with new info, and place another order.

Factor has now limited these promo codes to 1 per household, or 1 per address.

I thought it was the VCC that was failing, but it's not. I confirmed with their support team that they are now enforcing the per household rule.

Damn. Unfortunate, was wondering why I kept getting errors
