I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP

(Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Haven't been active.

All went well! We exchanged tradingview for a 2nd myfitnesspal in the end.

The only thing is that youtube needs to be US :(I will be making a US account myself and contact him with it in a few days.

Purchased 2-3 weeks ago:

2x MyFitnessPal (still work)
Youtube Premium (not activated yet)
Plex TV + Tidal (still work)
Chess.com Diamond (doesn't work)
Getmimo (doesn't work)
Pixlr (still works)

Gave user+pass for youtube premium today. Would have been nice to specify youtube needs to be US otherwise a different approach is needed :)

Worth noting (for now) both Mimo and chess.com have stopped working.

Let him know about Mimo on the 13th they are trying to withdraw money (emails of payment unsuccessful) he said it was normal and just ignore but after they've tried a few more times, pro membership went away - he tried fixing it to no avail (so far) on the 22nd but after telling him it didn't

work, he hasn't responded in regards to it further.

Chess.com also stopped working and he's asked me 2 days ago to offer him 24-48 hours to find a fix (fair enough), let's see how it works out today :)

Will update you all how it goes!

Update on this, issues with Mimo have since been fixed and Youtube Premium has been activated for the next 3 months.

Chess.com account got banned though and I'm still waiting on a fix from him :) Account was only used to do puzzles so unfortunately never even got to play "real" people for the analysis of the diamond membership. Will update after.
