Actually a good one, S1 was waaay better than S2 imo.

Watched this like a decade ago haha

The anime is a pretty good one and I dont want to spoil it for you. Season 1 is a gem. The latter one felt slightly rushed to me.

It was recommended to me years ago and become one of the anime I need to watch again because it's been so long. What did you think of it?

I actually loved this series, I'd even consider it the first "anime" I really ever watched outside of things like Naruto, or DB.
