Thread: [Method - year subscription of YouTube Premium for \\$10](#)

SIM-3327349 - June 13, 2022, 7:08 pm

Hello everyone. I would like to share method for cheap YouTube Premium. Only \$10 for year subscription. It works worldwide, it's 100% legal and you can get it on any account you want.

So how to do it?

- change IP country to Turkey using VPN / proxy
- go to <https://www.youtube.com/premium?ybp=OgIIEEoNCAYSCXVubGItaXRIZA%253D%253D>
- pay for subscription

It cost only 169.99 TR which is \$9.84 at this moment.

SIM-3327349 - June 26, 2022, 5:00 pm

Why are still people pays \$20 for year of YouTube premium, if they can get it on their own for half price? It's probably time for bumping this thread, so other people can save some money.

Sadly I tried this out and it didn't work as I wanted it too. It asked only if I wanted to subscribe for a monthly payment plan for 11.99Euro.

Try VPN, its working for me and for all people who tried it. I can help through teamviewer later this night.

Just wanted to update everyone that I got the method to work.

Used my vpn then opened a new brand new browsers (librewolf)

Then used duckduckgo to search turkey YouTube and clicked link then went to premium tab.

Found and selected the annual option and put in my details and then got 1 year premium for only \$9.77USD.

Thanks bro

still works, guys maybe you shouldn't leak it too much yeah?

SecureOp - July 20, 2022, 2:11 am

I keep trying this method but fail with the "Annual Premium is not available yet in this country".

Maybe I'm just dumb, cleared all browser session ID and tried multiple VPN locations.

I don't think it's necessary to clear sessions, it should just work fine with [censored].

This method works for so long. So many people know this method and so many people selling youtube premium for much much more than this.

I doubt that they will fix this soon.

There is no need to use duckduckgk or something like that. Just switch IP and hit refresh. If this wont work for you, then anonymous window, then Google, youtube premium and thats it.

d3t0x - July 21, 2022, 7:28 am

Used N-o-r-d VPN turkey and clicked on the link

Koyote - July 21, 2022, 7:30 am

If you do this, then stop using the VPN will it no longer work in the same way? Or will it revert back to the home country and try to bill for the rest?

When you stop using VPN, your subscription will stay, without any other fees.

Try different servers bro until you get the choice that's what I'd recommend. I used N-o-r-d too and couldn't do it at first till I got on the right server.

EDIT

I disconnected the VPN at the payment point and it went through.

Sadly I tried upgrading my account and get this error.
