Hey guys, I'm here to buy Amazon giftcards. There were too many nigerian scammers on the other platforms I was on. Hoping Hack Forums treats me better :)

Welcome, notMaximilian. If using the marketplace, highly advise to ALWAYS use contract system. [Help Docs](#)

Have a nice day, enjoy the forum.

Welcome to the forum bud, good luck with your purchases. You can find trusted sellers and trusted MMs fair easy, just make sure you be careful and best to deal onsite with contracts.

See you around!

Haha thanks Shrooms! Awesome pfp. Saw your post about wanting to game on a lowspec computer. I know that struggle all too well haha

Hm I just opened a contract and had it accepted. No clue where to actually send the funds. Would the seller have needed to provide it somehow?

Usually it is in the contract or on the thread, maybe attempt to contact the seller on their post or via PM/Convo
