Thread: [Any minecraft client that levels mcmmo skills automatically?](#)

Blabl - June 16, 2022, 6:13 am

Basically just looking for a client (preferably free), which automates leveling up most of the skills in mcMMO.

Most clients have things that will do it for you, such as Auto-Fish and Baritone can mine for you automatically

For some things it will for sure, be sure to check what anti-cheat they are running and what settings you are using as it can be easy to detect some things if used incorrectly.
