Thread: [OnlyFans manager, 4 models don't have efficient methods anymore](#)

ballzinmouth - June 19, 2022, 5:05 am

Hey, I have 4 models currently, as of late I have been unable to give the time and energy to staying updated with the latest traffic methods to keep these profitable, I manage the girls and can get them to do almost anything, they are fully verified, obviously some are more willing than others.

Looking to give 30 - 50 % for someone to run these for me, willing to give 50% to someone who can show me 5 figures or higher pcm on any current models they work with.

All these girls are UK based, as am I, I can provide proof of everything done in the past no problem.

Did used to run them on OnlyFans till the whole thing before about adult content, I know they went back to allowing it but since then we moved to snapchat, looking to move back to OnlyFans obviously as it says here. Thanks.
