Thread: [I'm new hoping to obtain a modest mining botnet](#)

Title says it all. I've always wanted to do it. I have quite a bit of technical know how but nowhere near what most people here seem to have. I've just been looking around and reading for the most part so far.

This is the best paid minning botnet <https://hackforums.net/showthread.php?tid=6150723>

This is the best free one: <https://hackforums.net/showthread.php?tid=6180455>

any competition is way behind

Yes, my plan was to use Zelo's botshop service to spread the pureminers. I've been looking around the forums though and I can't tell if PureCoder still offers private crypts or his "PureCryptor" service. Is it possible to get a custom crypt of PureMiner elsewhere that wouldn't interfere with UAC or WD? My apologies if this doesn't make complete sense, this is my first day learning about all this.

Maybe tru Ph4n70M Phr34K's suggestion... Oh, and congrats on the upgrade! ?

Thanks for your input. Yes I would like to spread the pure miner to build a net, my only fear is that it looks as if PureCoder no longer offers private crypts for it. I would totally do it otherwise. Is there a way to get a crypt for it from elsewhere?
