Thread: [The trick to finding a Linkedin account with an email](#)

joweb - June 20, 2022, 4:23 am

Hello guy's, have a great time!

Follow the steps below to find a person's linkedin account with an email.

Step 1) Open your outlook web and delete the address after the main domain and replace it with the word "people",
as in the two images below.

Step 2) Click on "New contact" and select Email address from the menu.

Step 3) Write and confirm your desired email.

Step 4) If there is a LinkedIn account with this email, it will appear in this section.

Make sure you're using a covert outlook account and a covert LinkedIn account, because I think you have to sign in to both.

All you need to do is log in to an outlook account. you don't need LinkedIn.
