Not really, I'm showing you how to sell a very limited type of product, which has very big demand for.

Decided to change the method I offered with another one. The old one would be too much waiting for the people, so this one is simpler and very fast ?

No, you don't have to sell anything.

We can cash out every 30 mins?

Currently it takes 1 day to be able to cashout, used to be instant last 2 days, but the whole process takes 30 minutes :)

is this white-hat, and are you willing to use a middleman?

Yes to both questions. First buyers are already making gains, might increase price soon.

IF you're giving out another VC, let me know. This one looks interesting.

Just purchased this from OP, will update with thoughts/earnings once I put the method into action.

FILTERED - June 23, 2022, 12:58 pm

I purchased this method. Here are my first thoughts.

This is not my final review as it does take about a day to actually withdraw the money. Profit can be made within 30 minutes and there is barely any set-up time. All that is required is a decent VPN.

I've been experimenting with this method for a couple of hours and have been attempting to scale it. Due to the nature of this method I do not know if I will be able to withdraw the money but from what I can see now, there is a possibility. Although, I haven't withdrawn anything yet...I have "made" about \$250 within these three hours. This is not autopilot which means that scaling requires your full attention, so if you're limited on time then there will be no profit.

This method will require a constant investment but you will gain profit almost immediately after (like I said withdrawel does take 1-2 days). When I first received this method, following the instructions were very simple, it was a step one step two process which is convenient. However, OP can definitely add more information on as it can be a little confusing at first.

Is it saturable? pretty unlikely, but you can not depend on it as monthly income.

I will be back with an update in about 1-2 days, hopefully with proof of earnings. If you'd like you can wait for my proof.

Thank you for review. Yes, the platform requires us to wait 2days now to cashout, I asume due the high volume o money we drain from them they might need some time to refill their wallets.

how often can we do this and make profit?

is it related to DeFi projects, miners or smart contracts?

Hey, if you read first posts you will notice I was offering another method which is my main income (where you have to sell something). But since it takes month to receive the product, I decided to put this one for sale, so instead of creating a new thread, I edited the old one.

Can confirm you do not have to sell anything for this method, although it does require investment as stated in the first post.

Sounds super interesting op, no clue what this is about, gl with sales

Stanley - June 24, 2022, 6:35 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Op has wasted buyers' time and money. created a lot of drama in the group convo, provided unclear instructions, and threatened that if I refund the buyer he will be making a dispute against me.

Note: I was the MM between amgmerce & ImLeo.

The dispute against you is already made as you are LQ MM.

Used his method, tried it 4 different times based off the instructions he gave. Lost about 150\$ and then he suggested using other people's computers. He also threatened the middleman we agreed on, please be aware of this seller.

also note nobody made earnings from the group.

You clearly abused the method by using it several times from your PC when I warned you to use it

just once.

Very unprofessional by op. Thanks you for the heads up, gentlemen.

Josh Newman - June 24, 2022, 10:06 pm

You guys are at fault for believing a thread with no credibility- guy has no posts and randomly signs up and wants to sell a method in the premium sellers section. Red flags everywhere these guys are clearly multis who make their income off of people like you when you realize that then you will understand to stay away from this entire section it is just a never ending recurring business that is so lucrative because of gullible people like yourselves and that goes for the "established" profiles to they do the exact same thing but more professionally and not from some third world country typing up grammatically a half-correct thread trying to sell something that can cover a fraction of your paycheck depending on who you are.

Stay away from these rippers, get a job, invest into something creative and real.

If this is AI marketing method, then it's a ponzi scheme / scam.
