Obviously this is an attempt to destroy the money making method market, expect more of these.

Attached is the product, for just ten bytes you too can learn the premise affiliate marketing.

ToS:

1. I am not responsible for the use of this information, make no claims to its accuracy, or the guarantee that you will see any form of income
 2. All disputes are automatically invalid. There's absolutely no point in disputing 10 bytes, it would be obvious you have malicious intent. You agree that if you do dispute with ill intent you will never use the HF marketplace again.
