I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

On Charter/Spectrum, I've probably got 40 or 50 city locations.

This is a dynamic vpn, which means it rotates on every request. But if you want something specific, I can build it to suit an exact need. Just let me know exactly which state you need and I can set it up.
