Thread: [JUNK: Mook Private Stub Crypt | WD Bypass Run/Scan| Long FUD|\\$25|BTC,LTC](#)

Murda Mook - June 25, 2022, 5:20 pm

Mook's Private Sub Crypt

Been in the crypting service for ages and now i'm coming from the Russian underworld with the best private stub that have long fud life span both runtime and scantime, results can be seen as below.

Features:

- Private Stub for Each Crypt
- Private Injection Method
- .Net & Native Support
- Assembly & Icon Cloner
- Scan Exclusion
- Private RunPE
- Advanced Startup
- Advanced Force UAC
- Disable Taskmanager
- Disable Registry
- Disable CMD
- Process Killer
- Fake Message
- File Binder
- Melt
- Hidden Execute

Public Stub: \$25
Private stub: \$75 /crypt
Private stub: \$140 x2 Crypt
Private Stub: \$195 x3 Crypt

For Custom service you can hit me up.

Nice to see a new crypting service on the forum, what language do you use for the stub and do you support x32 and x64 or just one?
