This can be done in few minutes! Ok, it's "pretty" free, as you need 50€ to deposit, but you will get it back no problem together with FREE 10-200€! (minus few cents for fees)

What needs to be done? Be sure to FOLLOW EVERY STEP AND USE FULL REF LINK TO GET BONUS!

1. Be sure to sign up via the [following link](#)
2. Verify your identity and address. I used bank draft or any other form from my bank page to verify address. No need to wait for the address to confirm, you can take further action.
3. Transfer €50-51 from your bank account to your wallet. I used [Revolut](#) so money came in instant, also Paysera.
4. Perform a € 50 trade. Pro-tip buy AKTIO coin so you could sell it all together when you get bonus!
5. Get AKTIO coin worth up to 200€

Payment proofs and more info in [full tutorial](#)

IMPORTANT!

You need to do at least one trade worth 50€ or more! You can't do several smaller trades, it doesn't work, I tried lol...

You can ONLY withdraw bonus when ADDRESS IS VERIFIED, so if you're afraid please deposit money only when you get fully verified.

The only con is verifying your address unfortunately.
