Hey guys, I've decided that I want to re-make another thread since I closed my other thread.

Update: Sorry for not getting to signatures on time, I'm super damn busy with school, life and shit. Just pm me directly if you have posted on this thread and have been waiting for me to make you one and yeah.

I've improved my skills on GIMP and I thought that I should move on to Photoshop and I did. I'm loving Photoshop and made a lot of nice looking signatures and few others.

Alright we'll be moving on to the real thing now.

[IMG]http://i37.[censored].com/2h5tssz.png[/IMG]

~I do not accept requests from people who has currently over 3 negative reputations. If you're a guy/gal who has a lot of positive reputation than 3 negative reputations then it's acceptable.

~I do not accept requests from assholes/flamers/scammers.

~I do not accept requests from people saying 'hi willz u mak me a siggy for me plz'. You must fill in the request form on what kind of signature/whatever you want.

~I do not accept payments from people to thank me, there's no need to pay me because it's a free service after all.

wetdream.us - October 12, 2010, 10:11 pm

Size: Any (Preferably to where if i decided to tile it that it would connect and look like its together)

Colour: Neon colors, yellow, lime green, light blue, pink, etc.

Render: None

Background: The style im looking for is the background from your signature. The lettering and size variations. I like that style ALOT.

Text: wetdream.us (if possible made 2 seperate ones, one with just wetdream.us and one with Lucky and wetdream.us. I dont mean to look the gift horse in the mouth.)

Font: Same as your signature.

Anything else that you want to add?: Basically im looking for the background style of your signature image. Just something that i can use as a basis if i was gonna put words over it or configure it into a banner or have users of my forum customize it. Etc. Something simple and classy.

Thank you for the great free service. Keep up the good work.
