Thread: [Need someone to market/bring traffic](#)

Have a crypto product, but lacking traffic. The product is legitimate, attractive; people are happy to have discovered it. Consequentially it creates very good conversion(like 1.5\$/visitor on average, but tested on a very small scale).

It needs more traffic, but i don't know how to get. Perhaps by targeting similar communities? I don't know. If you have any ideas, dm your telegram/discord
