Thread: [Should PlagueDawgder stay in blacklisted?](#)

Lynx - July 2, 2022, 6:35 pm

I've added [mention=5145898] to blacklisted because of his csgo skill and his attendance to [Gary](#) , [mention=2774521] and [sweatpants](#) their movie night.

Does he have what blacklisted seeks?
Elegance, professionalism and most importantly, swag?

I'd love to hear your opinion.

Gary - July 2, 2022, 6:37 pm

His attendance has been great. He hasn't abandoned us like [Velma](#) . I hope he has what it takes.

cc: [mention=2774521] [sweatpants](#)

I should get his spot, honestly.

I am trying to earn [Zexo](#) and you a spot right now. Please standby while I secure this bag.

Yes, He has the right aura for it

Jesus christ this is cringy as fuck and I honestly hope I stick to my word and leave this forum, what the fuck has happened to HF.

Peace.

You're about to rage quit a forum over negative popularity you received for shit posting in convo.

What about this thread is cringe? Its simply a public vote on whether a member should be allowed to stay in the group. Don't be salty because you weren't invited after you were begging [Lynx](#)

Don't be salty because you weren't invited after you were begging [Lynx](#) That is not the reason I would "rage quit" it was the fact this group has turned the Lounge/Convo into Panthers v2 and it's boring.

Everything. Also I wasn't begging anything, Imfao, are you dumb? Someone got invited and I was joking around asking where is my invite, how could you take that seriously when the guy I was asking "where is my invite" negged me.... Stick to your story though buddy.

Have fun Panthers 2.0, maybe I'll be back next week when the group fails and is resold, again.

Again not upset, but the fact you had to say that to get a rise out of me proves everything I've said so thank you good sir.

Peace bud, enjoy.

(Jul 2, 2022 07:30 PM)PlagueDoctor Wrote: [\[CITE\]](#) My opinion on this subject shouldn't matter as it's about me but hear me out.

Positives:

1. If Stanley spoils me with /flip I spoil you, I do it because of my gambling addiction not bytes.
2. I'm decent at Cs:Go somehow although I haven't played it in months until today.
3. I enjoy spending time with my homies and I'm pretty active on HF and will be now that I'm addicted.
4. I'm getting back into game-hacking and c++, not sure how that is a positive but it's worth to mentioning.
5. I'm staying positive no matter how many competitiveness we lose on Cs:Go. Rages are also non-existent, I won't be earraping and blowing your ears out.
6. Then the most important reason, I'll change my username to (PlagueDawgder). Something I might regret but won't change any time soon.

Negatives:

Poor to a point that I got a Cs:Go cursor that splits my screen 4 so that I feel like I got 4 screens.

As I said though, my opinion shouldn't matter. Let the people choose my faith.

Anyways hoping everyone reading this has a good day/night, PlagueDoctor out.

Are you telling me you can make ElmoWare a real thing?

Genuinely think you should be allowed to stay. You seem like a good guy, though you need to stop being shy and unmute yourself on Discord.

I've always said this before, but good regular members like you make this site great.

I will, thank you. Sleep tight bbg <3

I used to be pretty sensitive about popularity. I just want to be liked by the masses, but realize that not everybody is able to be pleased so I focus on pleasuring myself over others ?

Blunt - July 2, 2022, 9:34 pm

No I just don't like him lol or Gary xD

Last time I'm gonna say this buddy, I do not give a fuck that your little group of cretins negged me. I feel like I have explained myself enough to you bunch of fucking sheep as to why the negs mean nothing, this thread should be closed and archived or deleted over the amount of shit I have had to reply off topic just to make sure anyone reading with common sense realizes how much of a group of fucking degenerates you are.

I apologise to anyone who had to read this shit stain of a thread, posted by a low quality group and continued by low quality members.

Have a great weekend.

Not sure why you're spreading your toxic behaviour here after you've been told multiple times to

stop.

Lets go over the facts.

You got upset that you were negged and complained in convo.

You begged [Lynx](#) to let you into Blacklisted because [mention=5145898] was invited in.

You begged [Lynx](#) multiple times to reverse his neg popularity on you.

You continue to spread this behaviour outside of convo by harassing people that are not even in Blacklisted.

If you have a problem, send it to our PMs.

You have no reason to continue being a dick on this thread. Its a fun thread.

Sorry, you're correct. As you've been seeing I've tried to get him to stop responding, yet he continues to make off-topic posts.

We just want community feedback on if PlagueDawgder should be allowed to stay in the group.

I believe after reading the salty comments, he should be allowed to stay.

I'm gonna start doing ab workouts and pushups every time I fail a flip. One crunch, one pushup per failed flip. Maybe add in a multiplier per additional digit.

Make it more interesting, longer intervals will help you build the endurance.

Do intervals of 10 or 20 whatever you can handle.

Pushups for failed flips, crunches for won flips.
