Thread: [\[Source Code | Ownership \] Selling Telegram Projects | Account Creator | DM Bot](#)

bot_o_mated - July 3, 2022, 1:02 am

So as the title says I am selling source code\ownership of my Telegram Projects which includes

- > Telegram Account Creator
- > Telegram Mass DM Bot
- > Telegram Add Members To Group Bot

All the bots support:

- > Proxy: (http | socks5)
- > Multi Threading
- > Multiple Accounts: literally as many as you want

All the bots are working 100% and I can say with confidence these bots are the finest Telegram Bots you will find on the internet.

Price:

[Source Code] Telegram Account Creator: \$250

[Source Code] Telegram Mass DM Bot: \$200

[Source Code] Telegram Add Members To Group Bot: \$200

Q. How many people own the source code of these bots as of now?

-> No one except me as of now owns the source code of any of these bots.

Q. Why am I selling?

-> I can no longer suppress by urge to buy a new pc and this will help lol.
