There are no hackers here.

Just a bunch of kids thinking they are.

They couldn't hack themselves out of a paper bag.

Hi, I Just want to say, i don't like the fact how people didn't help this guy. So here a clue: Search the web , library or go back to school. I don't know how you rock at computer and if you got basic knowledge of computer....But start searching by the beginning. If you know how to administrate and hardening a system, you'll know a lot. I'm pretty new here. I'm not gonna post so often, so i don't know when i will get me PM enabled...When it come, just come back talk to me or reply here. Maybe i will forget to come back on HF and my account will be disabled. But at least i have give you some hint to start.
