I am currently using this service and got to say, when i first logged in to the Cpanel, i could see a lot of effort has been put in to it. It was very nice to look at. All the summary provided which i needed and did the job it is supposed to do.

I will be using this for a few months so i will come back and add whatever i go through while using this service. But from the get go, I am loving it.

Thanks OP for this service, I cannot compare it with others but i can assure everybody you get what you might pay for :) and then some :D

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
