Thread: [People who Negative rep for stupid reasons are pussies.](#)

People look @ rep as a trust factor EVEN THOUGH ITS NOT.

Because you don't like my/others opinions you L33t and Ub3r cucks -rep eachother and reg members without purpose because you're mad.

-repping without reason should be dealt with.

Cancel Culture but HF version. Can do it rather easy with enough friends.

Liberal cucks/conservatives cucks who think cancelling anyone based on an opinion are straight up retarded.

Have a good day ???

I could give you a negative popularity for this thread alone. People do not need a reason to neg pop you.

Regular members need to realize that popularity means fucking nothing. Stop getting triggered of a small action.

EDIT: You seem to be an idiot if you think that being gang repped is cancel culture. You need to obviously grow the fuck up.

Popularity means nothing? Popularity represents your worth. Why would anyone go to someone with -40 pop when someone with +40 pop offers the same service.

You seem to be an idiot if you think that being gang repped is not cancel culture. You need to obviously grow the fuck up and open your eyes.
