Thread: [Mr. Business Product Reviews](#)

**SIM-5049184** - July 10, 2022, 6:32 pm

Hello HF,

I am Mr. Business, if you have seen me in the crypto section where I usually post, you will know I tend to not withhold any information from those I am conversing with. I am a very cynical person. You may be wondering, how does this involve me? Well, if you are selling a product and tired of giving vouch copies and receiving 3 line reviews. I will gladly step in for you.

What am I providing?

I am providing full transparency honest reviews, you cannot pay me, you will not offer to pay me or I will ignore you. If you are interested in a barter system, in exchange for a review, all I ask is a sample of your product or service/vouch copy of your service.

You may once again be asking yourself, what the hell does this guy know?

So here, I'll share my background:Dropshipping

NFT Trading

SaaS (I am a college student studying computer science)

Networking

Malware & Other "Softwares"

CPA

Front-End Web Design

The review will be left on your thread in a professional format so that your customers are easily able to read and see it on your thread. I am not here to fake praise your product, if you truly believe in it and want an honest review, I will gladly give you that.

Reading through the marketplace as an outside user is painful, regardless if you are interested in this service or not, at least change the punctuation in the vouches you send people to post. ?
