Thread: [Hotel Booking Services for 45%-50% \(No Cancellation Guaranteed\)](#)

**beff.jezos** - July 12, 2022, 7:45 am

Hello fella members/resellers/travel agents,

For the last 6 years I have been doing hotels in real world but now I am offering my services here in forum as well.

No Cancellation Guaranteed.

The prices are:

45% for hotels which are located in favorable region with total amount to be paid is equal or greater then 1,600 US\$.

50% for rest of the hotels.

EX: if the booking costs 1000\$ you will only pay 500\$, if it is 2000\$ you will pay only 900\$.

For booking, simply you will send me your required hotel in following format:

1. Hotel Name:
2. Guest Name:
3. Number of Guests:
4. Check in & Check out Dates:
5. Room Type:
6. Option to be selected i.e. Room only or with Breakfast:

If your required hotel isn't available on my channels then alternate options will be given (same level of hotel).

Ideally, I need at least 3 days to do the hotel (except weekends) but can i try faster if there is an urgency (+5% fee will be applied).

I would be delighted to work with resellers/travel agents because of their understanding & knowledge. Secondly, I might not be able to do hotels in some countries & travel agents do understand that as well.

Hotel booking in CIS countries are not allowed. Sorry!

Interested persons can contact me: [https://t.me/bul\\_andy](https://t.me/bul_andy) or @bul\_andy

I will also book flights soon at 50% of the price.

Escrow always welcome & preferred.

Escrow will be released when booking is confirmed. Also, after 1 or 2 successful deals, the escrow will be released upon check-in.

Hoping for a great business relation with you all. Stay Safe!

I've seen referrers offer services like this so I don't want anything fraudulent. Is this legit?

**Toxin** - July 12, 2022, 8:53 pm

wondering if this is legit planning my next vacation soon

**beff.jezos** - July 12, 2022, 9:00 pm

Hello, the service is LEGAL. When bookings are made there are some suggestions and precautions to be taken so that everyone can relax. You get the service at half price.

Regarding voucher copies, I don't really know how to offer them since there are money to be paid for a reservation.

Contact me on telegram [https://t.me/bul\\_andy](https://t.me/bul_andy) and we discuss more from there.

Cheers!

This service is using account logs for third party and direct booking services. They are using points and payment methods attached to accounts to complete these bookings for you, that are owned by other people. This is fraud. You are 100% taking the risk when completing this deal and using the service, not the person who is booking for you. I just finished reviewing the HackForums terms of service and help documents and both say that this type of activity is against the forum's rules. Could you please explain how exactly this is legal? [beff.jezos](#)

my English is really bad so I had my friend write what I mean.

Well, how do you know better than me how my service works? How do you know this is fraud? So, in your opinion, RATS and keyloggers and other stuff is legal and my booking service is fraud. Look, i will not even answer you because i don't want to. I repeat, THIS IS NOT FRAUD but i will not explain how i do it so i can protect my way of doing it. Period!

Yes, this works WORLDWIDE except CIS countries. Also not all hotels. Drop me a message on Telegram and ask me your hotel.

Yes, this is legit but you have to follow some instructions.

I can personally say that this sounds legitimate and not fraudulent.

I contacted him privately to get more information.

?

Update:

This user is more than 99% likely using accounts that were cracked and using reward points, based on previous threads about "SMS spamming" and then a more recent comment where he had "no money" to buy content of a onlyfans model.

I'd DWC, if owner of account calls hotel it will indeed get cancelled and USUALLY they'll charge whatever balance to your card or call the cops.

Onlyfans? Model? I REPEAT, THERE IS 0.1 CHANCE OF CANCELATION! READ THIS - 0.1 CHANCE OF CANCELATION - 99.9 SUCCES. You are all so smart and all you do is browse all forums, hoping for something out of the sky... Damn.

So here you are admitting, or not denying that it is cracked accounts you are using and other

peoples reward points correct?..

Case closed. I wish I could report this thread but says I can't. Everyone needs to beware of this.
