Thread: [WEBMASTER | Need to copy a very old website which isn't available anymore.](#)

UNKNOWN1 - July 12, 2022, 7:45 pm

There was a website of a game (which I think I remember the url) that was available between 2011/2014

The site no longer exists, but their theme/pages is something that I want as I'm going to put online this game back and I want to use the same old page.

I have no problem using a MM/Contract or paying with BTC/Paypal.

Let me know if you can handle this, PM me your skype/telegram/discord whatever you prefer.

?

Why not share the url or more info? Maybe someone could do it for free. I'm assuming you've checked archive.org?
