Thread: [Course Certification](#)

XERO - July 13, 2022, 10:50 am

Looking for someone to take a 120h+ course in any field of programming languages under my name has to be valid through verification link.

Also looking for cheapest option not willing to pay \$50 into this.

Payment is BTC or PayPal through HF Contracts.
[contract=tid]Start Contract[/contract]

[contract=tid]Start Contract[/contract]I can do this for you... feel free to open a contract.

I'd charge \$30.
5 days (120hr+) course I don't see many do it for anything less.

This is Slave labor for anything under \$65-70...

5+ days .. come on OP Honestly you would be better off doing this your self or have a larger budget but if @ReviveTech is willing to do it for 30 bucks thats a steal

I would pay 1k if i had enough for it, but living in a poor country, being a student too plus you don't have a work is such a bad situation so i had to be clear about my budget.

Beware of scammers OP, you're not even willing to pay \$0.40 per hour for someone to do this. I can't imagine anyone doing it for even less than that, so mainly scammers would say they're interested.
