Thread: [MAKE \\$2000+ A MONTH WITH SPOTIFY \(REALISITC\)](#)

j3xon - July 13, 2022, 1:16 pm

Hello, I currently make 2-8k a month from Spotify streams using botnets. I'm looking to mentor people to learn how to optimize my methods and give back to the community.

In this mentorship, I will teach you how to make a living from streams on Spotify. I will start by showing you how to make a ton of songs (+100) in less than a week and get them on Spotify. Next, I will show you how to hide your tracks and make your streaming numbers look as realistic as possible. lastly, I will teach you how to scale the business and trigger the spotify algorithm so you dont need to buy streams anymore and make 100% passive income from Spotify playlists.

Upfront Investment

\$50-100 is recommended

(The More spent upfront the quicker you can do this full time) This will be the only upfront cash you should need, after this, the streaming money will build up over time and you can just reinvest that.

The Economics

For every 50\$ I spend I make around 250\$

if you spend 50\$ you will 5x your money every Spotify pay period. but to stay safe I stay around the 4000 mark.

To make 4000+ a month it will take 10 mins a day for around 6 months and then you should be making a decent amount on autopilot.

If you are interested, reply in this thread and message me "Spotify method", this is 100% a free mentorship so might as well try.
