Thread: [setting up RAT without port forwarding or VPS for free \(beginners way \)](#)

hydra11 - July 14, 2022, 3:52 am

here is a video tutorial on how to set up a rat with out port forwarding and vps, this option is free also limited band width but help full for starters those who don't want to waste money.

Hey so may be a stupid question I'm learning. With this is it for a android phone? Once installed remotely can someone view texts?

TheBrokenWasp - July 26, 2022, 1:20 pm

Haha I love how you tried ls before dir. I do that all the time when having to use windows since I made the move to linux permanently. Great tutorial.

beylux - July 27, 2022, 1:16 am

that's help a lot

keep posting good stuff bro
