Thread: [Omegle bot with proxies - fully controllable by telegram](#)

9May - July 16, 2022, 1:49 am

The bot gives you the possibility to spam your kik / snap on Omegle, you will get easily 200 adds per hour.

The traffic of Omegle is NOT HQ, but depeding on the time you run the bot you will get much US traffic too.

Features:The bot is fully controllable from a telegram bot, you won't need proxies or a pc to run it

OP bot who want to get Omegle traffic. Best in the market :) Used a long time ago and still using

D4GOD72 - July 25, 2022, 1:45 pm

I tested the bot for 1 day to be honest i made pretty good profit also you dont need to worry about proxy and much more stuff just use your phone start the bot like a boss and have fun.

ItachiUchiha - July 26, 2022, 8:08 am

Hands down the best in the market. i have used his last bot as well and this time he came back with even better bot i dont even need a VPS to keep it running for 24 hours. Also the OP is a friendly guy and is open for any feedbacks you have regarding the bot. i am a regular buyer of his service and i love it.

Is that count 200 from 1 active instance an hour?

Are we able to use more than 1 active runner while licensed and paid?

Very interesting I may have to snag a copy!
