This is why I provide a free review.

Very interested, and willing to review if you deem me trusted enough. I promise to execute the method you, leave an initial review and thoughts, and update posts as the ball starts to get rolling and profits come in.

Let me know :) (if it's truly whitehat, I'm interested)

Adding you now, I will post for transparency I am getting ready for bed as of this post so won't be doing any implementing tonight.

Update: I have been given the vouch copy and OP seems super reasonable and awesome to work with so far. We will begin setting this up tomorrow and I'm excited to get an update out for you guys by the end of the day

**petarster** - July 17, 2022, 12:02 pm

I wish you the best of luck with sales this seems very interesting, I do know I sell some money earning methods but if you do need a honest review from a long time HF member lmk.

Will keep an eye on this for sure

**Ab\$olute Money** - July 17, 2022, 2:43 pm

Working on setting this up today and the next few days. OP is busy most of today but he got me setup on the basics. The next part is the meat and potatoes so it takes some more time. Will keep you guys updated. I see someone said they bought it so I'd like to maybe get a group chat going with everyone and see how we can maximize our earnings by working together. I'll talk to OP about it when he responds next.

Weekly Update:

Started working with the Vouch Copy taker but he hasn't responded to me in more than 72hours. I will waiting for his return.

Almost everything is set up with the first buyer of the method, hopefully I will receive some feedback regarding this soon.

Dang I was looking forward to his review. I'd love to help with the VC if you need help. I'm good at scaling and reverse engineering methods as well if you want me to dive into that to see what can be further added. Best of luck on the sales.

Is this method possible to use without a PayPal account? Also is it 100% white hat?
