Thread: [understanding crypters /looking for mentor](#)

D3ATHWISH - July 17, 2022, 12:05 am

i saw in this forum people are looking for crypters just want to buy them n use its instantly.... but personally for me im hoping to look for a mentor which can guide me n help me understand how it work such as process hollowing etc im willing to pay for the mentor to teach me, i dont want just copy and paste from github n reuse the codes.... all i want its truly under it n gasp the knowledge... im hungry for knowledge

theres always a saying "If you give a man a fish, you feed him for a day. If you teach a man to fish, you feed him for a lifetime"

thank you in advance !

feel free to share the knowledge too in the comments :)

which programming language?

This might help:

[delphibasics\[.\]info/home/delphibasicscounterstrikewireleases](#)

I suggest you look for resources in GO and RUST programming languages for these you would be FUD from AV. Delphi more likely to get caught even when homemade.

Drop me a message if you need some tips but dont expect from someone even skilled at this field to mentor you at top-level if you are not ready.

Dude just download some free available sources and learn it all by yourself. You can even find some good tutorials about it.

ManWithNoFear - July 26, 2022, 1:38 am

You can find here book called Crypter blue print , it's a best start for u to know how crypter work it's very easy for the beginner it's explain how crypter work, I hope this be useful for you.

The book link for download :

<https://archive.org/details/TheCrypterBlueprintFREE>

You are welcome ?....

Kurdish.dersim - August 22, 2022, 10:59 pm

Which crypter program are you using?

greentiger - August 23, 2022, 11:42 pm

I'm looking for private crypter.

Private crypter.

DarkCrypt tools.

Dear

I have sha1 hash, but I can't crack it. Please help me.

31d6cfe0d16ae931b73c59d7e0c089c0

Not salted

SHA1 hash

My shitty computer doesn't have enough memory to allocate to Hashcat to try....

?

Best
