Thread: [Online Casino Money Making Method \(Unique/Private - Generate Thousands\)](#)

StankyTip - July 18, 2022, 7:34 pm

I'll keep this post short and sweet ladies and gentlemen.

I've been gambling on online casinos such as Stake, Gamdom, DuelBits, Roobet, and 500casino for quite some time and always tried finding a glitch in the system. I searched up YouTube videos, read posts on online forums, etc. Bottom line is, nothing worked.

What this method is NOT:

- Autobetting system for house games
- Anything publicly posted online to find
- Downloadable files

You will need a minimum amount of \$200 to get this to work. The more money you have, the higher bets you can place, and the higher sized return you get in exchange. You can generate thousands of dollars a day but you will need patience. If you enjoy gambling you will enjoy the process.

Price: \$2000 (10 slots maximum)

I will take a copy but we will utilize a trustworthy Middleman to hold the funds before release.

nectar - July 18, 2022, 7:45 pm

I will also take a copy if you'd accept middleman.

Some screenshots for that price would help you.

Only middleman deals, folks!

If anyone shows interest I'd be more than happy to show screenshots and discuss more via Discord. Not to worried about selling or not, but thank you! :)

What is the risk/profit margin looking like ? \$2000 for a gambling method is not a small amount. Show us your Stake statistics please (let them email you your monthly statistics so we can see how much you made this month)

hate, but saying there is glitch on Stake is hilarious.
No hate taken. But I will respectfully have to disagree.

I do not use Stake, however, I can show you my profile on my home website. You can see my net profits and the graphs gradually going up with zero dips. I've been using this for a while and am up tremendously. If anyone is truly interested, I can help you and share any details needed.

I've bought many Ebooks and gambled \$75k plus this year alone. I don't doubt you can increase your odds but you'll always lower your return. Any gambling is risky. The more you play, the closer you'll get to losing it all.

As a gambler, I totally understand your concern. And can guarantee only success. As I previously said as well, I can show my chart of 7 figures being made. This isn't something that can get patched as well. However, I think I'm going to lower the amount of copies to 3 just to keep it to a minimum.

So you claim you made millions with it, why bother selling it for \$2000 bro. Technically with millions bankroll if you got bullet proof method, you could make at least 6 figures daily ?

2k for a gambling method is way to risky, good luck with sales though

He was asking to see my Stake statistics. Stake is not my home casino. I use another casino to generate my money. Of course, I used stake in the past. But my positive stats are not on Stake, it's on the casino I play everyday. Didn't know I had to explain this to you, lol.

Well we are your customers, you need to explain everything to us and share proof etc. Otherwise no one is going to trust you with \$2000.

Anyway, good luck, your going to need it :)

?????? - July 26, 2022, 6:08 pm

I'll literally buy two copies right now. One for me, and a friend. If you take a middleman? HF Staff :)

Communist9 - August 14, 2022, 9:08 am

I will also take a copy if you'd accept middleman, let me know.

well yeah when you state something in the OP you'd think you'd have evidence to support that furthermore, you havent responded to anyone publicly asking to use middlemen if you're pming people individually it would help for others to know your stance on it.

OP seems to not have logged on for 10 days. But if he does come back and takes a MM id be interested too :)

It would be great if you can show them all to us?

Just a bit of curiosity, if you have already made 7 figures by gambling why sell it at \$2000 per piece as you said you probably make thousands a day and even 100 thousands per day if your size gets bigger and bigger

Any way, good luck with you sale.
