Stanley - July 22, 2022, 5:33 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

The Director - August 12, 2022, 7:55 pm
My overall rating - 8

I was fortunate enough to receive a free trial from Millionairepro of all 3 services however I wasn't keeping track of the sports, maybe 1 or 2 bets that turned out to be parlays that missed by 1 but the service did seem to keep receiving tips from the predictors. Millionaire's main focus is the crypto signals which had a lot of providers and a lot more hits than misses that I noticed however my main attraction to the service was the Forex section which he admitted he didn't specialize in and there

were some flaws such as missing TP/SL notifications for some of the providers but some of the providers did hit their TP's and ended up in winning trade(s), however some of them had way too far out SL's and TP's(hundreds of pips) but never filled out the trade and still kept a 1:3 RR, all in all the crypto section seems to be the most profitable and the forex / sports bets need a bit of maintenance or updating however it's worth it's weight in gold overall. For \$40/mo, you cant get much better but I will be subscribing to the Forex section when there's a bit of an update, crypto&sports betting just aren't my forte. GLWS @op

I was able to join the discord and here is my honest review:

I defo can recommend this service why?

- Nice owner, which is available 24/7 - dont know when Millionairepro is sleeping?
- When there are issues, mainly all issues are fixed in a couple of hours or minutes
- Top signal providers (crypto)
- Cheap as hell based on that list where you get access

And the most important thing, there is no delay inside his discord.

Thanks!

Ohhh... and they are working on a solution to automate the best crypto signal providers - which will be a game changer - no manuall trading anymore!

lulzcat - September 15, 2022, 12:43 am

Hey mate, I'm interested in the forex service. Would it be possible to test this over a week long period or something on my demo account? That should be enough time for me to determine if the service will be reliable enough for me.

Cheers!

NZT48 - September 15, 2022, 1:13 am

I guess you need at least \$1000-\$2000 starting out, in order to see real profits trading crypto.

I'm posting to come back, GLWS

Not really, If you trade futures and use 10-20x leverage you can minimise risk while still making decent profits off a \$200+ portfolio.
