Thread: [Corona round 2.](#)

Net - July 23, 2022, 2:20 am

So yea. I got Covid again.

Quarantine isn't mandatory here, but I will still stay at home. Most likely got it from my trip to TML / Belgium.

This time it isn't so bad. Light fever, light headache, light back pain and also coughing. A lot lighter than my first time.

harpocrates - July 23, 2022, 2:24 am

Damn! I hope you recover well and are okay! I've had it three times now. It sucks. They say its much more mild now though?

Wish you the best.

Eran - July 23, 2022, 6:12 am

So the same thing happened to you with TML which happened to me with Ultra. I can already see articles "music festivals super spreaders of COVID".

I've literally always came back from a music festival with a weak immune system and I get sick. People don't understand how physically intense a music festival can get. But noo, it's all COVID now, better bring in the lockdowns ASAP /s

Hope you recover OP

Yin Yang - July 23, 2022, 6:47 am

Damn I only got it once recently in June.

Deformed - July 23, 2022, 7:17 am

It seems like Covid is coming back for a third wave, at least where I live. Coworkers have slowly been getting sick with it and not returning, I see more and more masks out daily compared to 3 months ago.

Happeh - July 23, 2022, 8:05 am

UK here and caught it a few weeks back. Still coughing slightly but 100% back to normal, no lung damage or anything of the sort. I had a bad 2 days but nothing more than a heavy cold, outside of that same as you, light everything else.

GL buddy.

Satoru Gojo - July 23, 2022, 9:54 am

I do know a lot of people around me who just got it.

Hopefully I'm good I don't wanna be sick while dealing with moving bs

Net - July 24, 2022, 9:05 am

Well cases have been rising. In one way I am "glad" that I got it at the start of the wave and not at the end like last time.

Eran - July 24, 2022, 9:06 am

Yeah man, I hear you. Only sucks that I lost a few weeks of summer to it, but oh well.

Isolate - July 24, 2022, 10:00 am

Well that sucks, I will say they I have 3 roommates and every single one of them had caught covid and for some reason I didn't even get sick. I am not even vaccinated either. lol

sweatpants - July 24, 2022, 10:39 am

Sorry to hear this sir, I hope you make a speedy and full recovery! How was your trip?

Smurfboi007 - July 29, 2022, 10:19 am

Got covid the first time this week, 2 years later...

DashPHP - July 30, 2022, 4:59 am

I only got COVID once (untested) but the pain was like no other. Felt my back bones in pain the most. Couldn't move. Really scary that haha.

Lasted no more than 4 days. I'm great now.

Net - July 30, 2022, 5:58 am

Update: this time it wasn't bad at all. Slight coughing and runny nose. That is it. But I do feel tired constantly, same as last time.

Sexyb8h - July 30, 2022, 7:14 am

covid sucks sorry to hear that u have gotten it

Beherit - July 30, 2022, 7:33 am

Hope you feel better man!

[Michael](#) How you let this happen to your tourists?

Eran - July 30, 2022, 8:25 am

It's normal, I still get tired even though I'm like 99% fine

oRequiem - July 30, 2022, 8:54 am

Hope you feel better soon, I've never caught it so not sure how it feels. Scares me tbh.

Cuthbert - July 30, 2022, 9:19 am

How do you know it's Covid and not just a regular cold with false-positive tests?

Deformed - July 30, 2022, 9:44 am

Seems like Round 2 is happening in the US. Family and coworkers alike have been sick, and I've been seeing a lot more masks out than usual.

I took a test yesterday to try and snag some time off of work but negative

Net - July 30, 2022, 10:09 am

(Jul 30, 2022 09:19 AM)Cuthbert Wrote: [\[CITE\]](#) How do you know it's Covid and not just a regular cold with false-positive tests?

Tested everyday and the friend group I was in, we all got it at the same time pretty much. One my friends had it bad, lost a few kg in a week.

Cuthbert - July 30, 2022, 10:13 am

Correlations aren't necessarily causations. I know an unvaxed guy who was the only one to never get covid in his office, everyone else was vaxed.

Seiyoku - July 30, 2022, 6:33 pm

Hope you get to feeling better! I couldn't imagine!

DashPHP - July 31, 2022, 3:59 pm

Maybe so, but personally the 4 days of being 'ill'... Whao. Never felt anything like it. Really got me scared.

Laughing Man - August 1, 2022, 12:09 am

Crazy how people get covid more than once.

Net - August 1, 2022, 12:52 am

Tied - August 1, 2022, 2:21 am

Good on you for staying home.

Hope you finish recovering soon!

Malthemar - August 1, 2022, 2:23 am

This time it isn't so bad. Light fever, light headache, light back pain and also coughing. A lot lighter than my first time.

I've had three bouts of Covid.

They get easier to manage every time. One thing I never seem to avoid is this odd, dissociative sensation.

cosmicall - August 1, 2022, 2:45 am

I got COVID-19 earlier this year (in February) and i fortunately got through it pretty quickly. The only symptoms i got was just a light-headache and coughing. BTW this happened while i was FULLY vaccinated. Germany had some wacky vaccines then.

Anyways, sending my wishes to you my friend.

Yanix - August 1, 2022, 2:56 am

Charlie Sheen - August 1, 2022, 4:01 am

I'm not for or against the vaccine, just curious if you were vaccinated and/or boosted?

TerminalJester - August 1, 2022, 11:32 am

Covid twice? That's rough brother, my girl has had it three times and I haven't had it once. I'm not sure how I've dodged it but I'm happy I have. Rest up bub!

I think it was vaccines that just came out like early vaccines
