Vouches/Reviews:

(Aug 1, 2022 01:17 AM)Screems Wrote: [\[CITE\]](#) OP supplied me with a vouch copy of this service. I am in no way affiliated with OP and met him just for this service.

Honestly, it was a really quick and straightforward process.

I made a brand new, fresh account that was level 4 when supplied to OP. I got to level 4 by literally completing the tutorial. Ended up being level 33 after the service.

What I really liked is the fact that OP supplies a track & trace LIVE tracker where you can see the progress that your character makes during the boost. How many Pokémon Caught, Shinies, PokéStops spinned, etc etc. This made the wait very bearable.

Progress image taken during the levelling:

Checking the profile, everything looks fine! My highest Pokémon on the profile is 1700! Also have a few shinies.

All in all, service is legit and fast as well. Thanks OP!

All I had to do was provide my login details and the rest was done by OP. It took a few hours and after that my account went from level 4 to 34! Besides that I have received a huge amount of Stardust, 368890 to be exact. While this service is running on your account, a huge bonus on top of everything is that you can track the whole process in real time through a website that is also provided:

If you are looking for a fast and safe way to give yourself a head start, then this service is for you!

Interested. I think my account was almost level 30.
Will sign in and double check.

After my vouch copy I paid Smurf to do some more farming for me. He completed the service as asked and even added some extra time because of downtime. Thanks for the service my guy!

proXace™ - August 14, 2022, 1:15 am

Purchase a 10mil boost on my personal account.

So far so good with the live tracker.

Paid for a service from Smurf, and received extra due to a little downtime.
Smurf delivered exactly what was promised, and some extra.

Hi! You can use this site to see the total required XP for each level:

https://pokemongo.fandom.com/wiki/List_of_Trainer_levels

It takes 2 Million for lvl 30 and 710k for lvl 25. I hope that helped!

I would love to receive a vouch copy of this so I can post a detailed review it if there are any left, the method looks very interesting!

All orders have been completed.

Commenting here so I remember to come back later. Extremely interested in your service.

I do have a question though, if I were to order these does it have to be for a fresh account? If I'm already like level 30 or so and get the 20m xp would it just add to it?

Glad to hear! It would indeed append 20 mil xp to your account. So you do not need a brand new account.
