Thread: [Automatic BOT Visa discount gift cards](#)

Lapucelle - July 30, 2022, 6:33 am

I have a telegram bot source that lets you buy cheap VISA gift cards every day.

First you have to pay the bot at \$500 but for the source of this bot I offer it to you for \$100. Then, if you are interested, you have to pay me \$100 and then \$500 for the bot. Like the screenshots down below.

The bot also offers an automatic Paypal cashout method with a 10% fee. Or if you want to know a method of cashout, I can make you learn it for \$50.

Do not hesitate to send me any message if you are interested!

Don't fully understand..

I pay you \$100 for the opportunity to pay the bot \$500 and then I can buy gift cards for 50% off?

You have misunderstood.

100\$ is my price for me to give you the source of the bot, 100 is little because I know that it will be necessary to pay more \$500 to use the bot at 100%, because it is managed by a telegram team.
I also did pay the 500 more to have access to the bot.

You explained it by basically making it more confusing.
Sounds like you yourself don't even own this, you paid \$500 to have access & are trying to sell this?

Sorry, my English is shit so I'm really sorry if I express myself badly.

Because it's been a big time since I paid it, and of course I already earned bucks with it, I mean, you have a lot of ways to make profit, like cashout by paypal with 10% fee directly through the bot.

But hey, if you think I'm doing all this effort to scam, I'm absolutely not the case, I'm selling it because I'm focused on another way to earn \$\$\$. And that I find it a shame not to introduce this method to people who might be interested

Lol why would you even want / need to sell it?

If you make money from it then anyone would keep it instead of selling it for so cheap.

This looks like an obvious scam ?????

Seems like you are using Prepaids Bot Giftcard Exchange here

Yes exactly! These are Vanilla, Walmart Visa and the perfectgifts cards.

Here is as a screenshot of a message from the staff Bot. You can understand that this is not a scam at all

You can ignore me, I mean, you do what you want, if you're interested then I'll show you the bot,
otherwise never mind!

Here is a screenshot of a \$25 visa gift card purchase.
