Good hustle, but... what haters?

Malthemar - July 31, 2022, 5:05 pm

Congratulations. I'm curious how accounts like this don't get banned.

Impressive as hell! Great work OP! Do you sell how you gain models? I saw you pay them around ~30%?

DashPHP - August 1, 2022, 11:20 am

Wow i'm seeing a lot of this right now. Amazing.

cloudz4me - August 2, 2022, 1:32 am

if you have 100 Models \$1 Million per month is easy for you.
Congrats

Congrats

Id say with 10-20 model and probably soon with just 5

Spec - August 2, 2022, 12:52 pm

To be honest that's extremely nice. Out of curiosity is it a "fake" model or a real one?

Upgrader - August 3, 2022, 3:29 am

Some nice earnings, interesting to see the message ratio. Haven't seen one like that before; you got your marketing plan down.

Lmao he bogus as hell if he only paying them 30%

Oh lol this one of them new upgraded accounts that only post in bragging sections and then a sales thread then dips

That very well might be the case. I'm sure there are models out there that will gladly take 30% for just posting content and not having to do the marketing, etc... especially if they're already failing in the business.

Time will tell I guess.

It would be really hard to use a fake model for Onlyfans. You need to pass a KYC and the bank account name must match with your provided informations. That's why you need a real girl to work with if you want to do e-whoring on OF.

I mean at this point it's not ewhoring anymore tho if you're working with the real girl to provide her content, no? It's more like managing.

You're still selling pics and vids like e-whoring so I'd consider it as e-whoring anyway

I'm curious what's stopping them from just making their own account and taking all the earnings because an attractive model wouldn't have an issue getting people

Molegrips - August 16, 2022, 8:34 am
