looks like a cool service but before buying i have 1 question:

are these cracked accounts? or do you activate the lifetime membership on buyer's email?

They are personal accounts made on a custom email with my domain. Not cracked but also not personal (gmail/etc).

While these have been running for a very long time (years), I obviously cannot 100% guarantee.

I'd use it for the pro version of office apps and short-medium term storage, if you're buying for the storage I recommend backing up elsewhere as well if they are important files.

However, if something does happen my warranty would be a refund or replacement to your satisfaction.

How do I pay, because I only have PayPal. In addition, I provide email, and then you will give me an upgraded account?

This could really be useful!

I have some questions,

After purchasing this, the buyer will receive a login (email, pw). That's it? Also, I assume after signing in, we download the whole 'package' from Microsoft's website?

Yes, it's accessible from office.com or the standalone apps for each. You have the actual license to run the products @ the paid (enterprise level)

The login you receive is actually made by you. You are given a username (you can request) and a password; once you sign in it will instruct you to change your password so I do not have access to your account.

Hacked emails or hacked company? Does it belong to a hacked company that you're issuing licenses from?

Neither. It's completely legal.

Please stop spamming threads regarding VPS's. Instead go to google and look up "free VPS" or use free google cloud credits.

highdev - October 4, 2022, 4:59 pm

not spamming.. but iam try to find vps service on forum brother.. hope you understand..

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
