If not, I'd be happy to try this out. I think I'm locked in for another month or two - then I can cancel my Adobe sub.

EDIT: If I cancel it's \$34,49 they charge me, so I assume 1 more month?

yes completely safe, you have to unsub current plan then you may join us by provide your adobe ID

I think he is misinterpreting the "Creative Cloud" as something like AWS/Azure where he can create virtual servers.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I bought from OP and he sends you a link to your existing account to join a group, which then upgrades your subscription.

Can definitely vouch for [SIM-48001](#) 's Adobe CC upgrade service, but he was last online like 4 days ago.

Dang it seems like all Adobe subs are revoked cause the method got patched. [Upgrader](#) already got closed over it.

I advise everyone to not buy it right now cause even if it works, it will get patched soon ?
