Thread: [Require Mascot Logo](#)

lhuf.dev - August 2, 2022, 7:35 pm

Hi there,

I am a software developer who has recently made the decision to start freelancing.
I am going to need some digital assets but am running on a tight budget for the next couple of weeks due to personal circumstances, therefore, for the time being, I just require a logo.

My idea is that the text included needs to be: 'lhuf.dev'
and that the design takes inspiration from mascot logos, but the mascot is in some way related to software development, or working from a computer in general, for example: someone on a laptop (I am open to and encourage any more creative ideas).

Hopefully I explained that well enough, if there are any questions let me know.
I am looking for the idea you have, the price and the delivery time.

Thank you so much!!

Also, this could be the start of a good business relationship since I will certainly be requiring an array of digital assets in the future.

I can do this for you, here's an example of a mascot logo I've made. Price will range from \$50-100 depending on complexity and delivery time is usually within 24 hours with tops 48 hours.

Send me a PM if you're interested!
